EDUCATION

Bse Computer Engineering
UET Lahore
10/2019 - Present   *Cgpa : 3.63*

Fsc Pre Engineering
FG Sir Syed The Mall Rwalpindi
2017 - 2019   *955/1100*

PROJECTS

Identity Protection
- Worked on an application that takes a youtube video url and blurs out all instances of a specific person present in the video.Using concepts of face blurring in opencv and face detection and recognition

Urdu handwriting character recognition
- Used pytorch to train model on custom images of urdu characters that was able to identify each character with an accuracy of 97%

HealthCare ChatBot
- I created this chatbot like project by extracting symptos of the patient and using an ensemble of multiple ML models like Random Forest

Anaizan app
- By following a figma design, I created a full Frontend of a website using React with the help of tailwind css

Travel guide app
- Developed and deployed a travel guiding app admin panel using React and Firebase as the database. I deployed it on Heroku and used Figma for frontend design guide.

WORK EXPERIENCE

Mern Stack Intern
Daxno Technologies
06/2022 - 08/2022
Achievements/Tasks
- Made different Websites admin panels
- Frontend in React with Tailwindcss
- Creating RESTful services with Node.js
- Made APIs to connect with Firebase and Mongodb

SKILLS

`Python` `Django` `Tailwind` `Pandas`

`scikit-learn` `MySQL` `Opencv` `Node` `React js`

`JavaScript`

CERTIFICATES

Front end Development with React Coursera

Machine Learning Coursera

Python Kaggle

SQL Kaggle

LANGUAGES

English
Full Professional Proficiency

Urdu
Native or Bilingual Proficiency

INTERESTS

`Surfing` `Web` `Reading` `Computer Vision`
